Tools

MS Project Office

Lockhart Consulting utilizes Microsoft Project tools to perform project planning tasks, deliver resource allocation, track project evolution, and achieve improved communication and collaboration.

Scheduling Tools

Lockhart Consulting Group employs scheduling tools to track, report on, and communicate project progress efficiently and effectively. Scheduling tools also assist in ensuring everyone is on the same page as far as tasks, dependencies, and deadlines, helps highlight issues and concerns, such as a lack of resources, and monitors progress and identifies issues early.

Testing Tools

Lockhart Consulting utilizes testing tools to perform test activities including planning, requirements, creating a build, test execution, defect logging and test analysis.
